Re: AWP Track 2 Settlement

Civil Action # 01-CV-12257-PBS, MDL No 1456

I strongly disagree with the revisions to the Proposed Settlement.

My late father (he passed away more than 10 years ago) was on a number of medications involved in the suit., in particular Epogen.

As I have stated previously to the Court and the attorneys involved, there is NO way we can document his drug use at this time.

I have spent days trying to get someone at the hospital (NYU-NY), to provide me with his records. All to no avail. His doctor passed away a few years ago, and the doctor who took over his practice, would also not reveal any records.

A few years ago, we had a flood in our basement and any records we had were destroyed.

What am I to do?

The court is putting unnecessary hardship on families like mine.

Class action suits serve a purpose, and the attorneys do receive excessive fees, but the bottom line should be helping the people involved..

I am not an attorney, and trust my letter, written in frustration, is acceptable and will be reviewed favorably.

Respectfully yours,

Phyllis Granat
